Nonmetallic Tubing - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4720-01-583-6672

Cross Sectional Shape:
Round
Tempurature Rating:
125.0 degrees celsius single response
Features Provided:
Flexible
Inside Surface Condition:
Convoluted
Measuring Method And Length:
100.0 feet
Special Features:
Crush resistant; provides abrasion protection; slit
Material:
Plastic polyamide outside
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A54200
