Cross Sectional Shape:

Round

Thread Direction:

Right-hand all ends

Outside Diameter:

0.250 inches

End Application:

4110-01-534-7675, mobile int coll sys

End Fitting Component And Material:

Shell steel all ends

Connection Type:

Plain face flange all ends

Measuring Method And Length:

14.710 inches

Product Name:

Hose assembly, extend retract cylinder, long elbow

Special Features:

1st fitting straight 37 degrees flare jic; 2nd fitting 90 degrees hose x 37 degrees flare jic

Supplementary Features:

Nha-891-11900

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A542a0
