Product Name:

Captive acceleration tube

Special Features:

Flow range: up to 15 gpm; active tube fitting: 1-1/2 inch; weight (base model): 1.3 lbs; flexible tube absorbs energy from a positive head to increase liquid acceleration which significantly reduces cavitation and resulting potentially damaging system surges or hydraulic spikes.

Material:

Stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A541z0
