**Product Name:**

Hose assembly hydraulic

**Special Features:**

Burst test hose should be tested at 133 % of operation pressure 183.96 mpq (2750 psi). Using 100 degrees c (212 degrees f) petroleum-based test fluid. Min of 200, 000 cycles length center of fitting to center of fitting 2452+- 20 millimeters

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A542a0
