Cross Sectional Shape:

Round

Inside Diameter:

1.250 inches

Outside Diameter:

1.295 inches

End Application:

2355-01-539-3589; light armored vehicle

Measuring Method And Length:

100.000 feet

Product Name:

Sleeving

Special Features:

Type: abrasion resistant; abrasion-resistant type: standard; material: nylon; construction: woven; flat width: 2.030 inch, ; operating temperature: -40 degree to +250 degree fahrenheit; not flame retardant

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A54200
