Inside Diameter:

0.313 inches

End Application:

6115-01-561-7718 generator set, diesel engine

Measuring Method And Length:

2540.0 millimeters

Product Name:

Line, fuel

Special Features:

Hose assembly

Material Specification:

Sae 100r5 assn standard single material response or sae j1402 assn standard single material response tube

Media For Which Designed:

Fuel/oil, hydrocarbon single response

Supplementary Features:

Rubber synthetic tube

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A542a0
