Cross Sectional Shape:

Round

Inside Diameter:

16.0 millimeters

Tempurature Rating:

-40.0 degrees celsius single response and 176.0 degrees celsius single response

End Application:

Pandura ii

Outer Covering Environmental Protection:

Oil resistant and ozone resistant and weather resistant

Product Name:

Extra service straight silicone hose

Special Features:

Meets requirements fo sae 20r1, class a, standard wall; resistant to extreme temperatures; resistant to coolants

Material:

Rubber silicone tube

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A541z0
