Inside Diameter:

Between 1.58 inches and 1.62 inches

Outside Diameter:

1.95 inches

Overall Length:

4.50 inches

Product Name:

Sleeve, hose assembly, fire protection

Special Features:

Fiberglass sleeve shall be silicone rubber coated with a min of 0.03 inch thk, shall be orange or brown in color with black or white identification markings; useable temp range of -65f to +450f, intermittent to 500f

Material:

Rubber

Specification Data:

Sae-as1072 national std/spec

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A520e0
