Cross Sectional Shape:

Round

Inside Diameter:

0.22 inches

Outside Diameter:

0.25 inches

End Application:

Ground support equipment

End Connection Design:

Straight all ends

End Fitting Component And Material:

Swivel nut steel all ends

Fitting Component And Surface Treatment:

Swivel nut cadmium all ends

Measuring Method And Length:

40.0 inches excluding end fittings

Media For Which Designed:

Hydraulic fluid single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A542a0
