Cross Sectional Shape:

Round

Inside Diameter:

0.36 inches

Outside Length:

0.24 inches

End Fitting Component And Material:

Adapter steel all ends

Layer Composition And Location:

1st layer molded polytetrafluoroethylene

Inside Surface Condition:

Convoluted

Special Features:

Ss braided hose assembly; connection sizes 1/2 inch; connection type tube stubs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A542a0
