Cross Sectional Shape:

Round

Outside Diameter:

0.750 inches

Exterior Color:

Black

End Application:

Skid-steer loader 6640e

Maximum Operating Pressure:

3000.0 pounds per square inch

Measuring Method And Length:

23.0 inches working

Special Features:

Has 3/4 male connectors flared 37 degrees both ends

Media For Which Designed:

Hydraulic fluid single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A542a0
