Cross Sectional Shape:

Round

Outside Diameter:

0.750 inches

End Application:

Skid-steer loader 6640e

Maximum Operating Pressure:

6000.0 pounds per square inch

Measuring Method And Length:

22.31 inches working

Special Features:

Item has 90 degrees female fittin (offset 36 deg) both ends; threads 1 3/16-12

Media For Which Designed:

Hydraulic fluid single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A542a0
