Cross Sectional Shape:

Round

Inside Diameter:

0.750 inches

Outside Diameter:

0.968 inches

Inner Conveying Tube Style:

Plain

Exterior Color:

Clear

End Application:

Boat, rigid in

Burst Test Pressure:

250.0 pounds per square inch single response

Measuring Method And Length:

10.0 feet

Product Name:

All clear pvc tubing polyester reinforced (red-tracer)

Material:

Plastic

Media For Which Designed:

Water single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A54200
