**Cross Sectional Shape:**

Round

**Inside Diameter:**

0.750 inches

**Outside Diameter:**

0.968 inches

**Inner Conveying Tube Style:**

Plain

**Exterior Color:**

Clear

**End Application:**

Boat, rigid in

**Burst Test Pressure:**

250.0 pounds per square inch single response

**Measuring Method And Length:**

10.0 feet

**Product Name:**

All clear pvc tubing polyester reinforced (red-tracer)

**Material:**

Plastic

**Media For Which Designed:**

Water single response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A54200
