Cross Sectional Shape:

Round

Inside Diameter:

Between 1.25 inches and 1.50 inches

Temperature Rating:

-40.0 degrees fahrenheit and 257.0 degrees fahrenheit single response

Inner Conveying Tube Style:

Annular close-pitch corrugated

Layer Composition And Location:

1st layer rubber, synthetic

Measuring Method And Length:

15.50 inches

Product Name:

Hose, radiator

Special Features:

1st end 1.5 in id, 2nd end 1.25 in id

Media For Which Designed:

Water single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A541z0
