Cross Sectional Shape:

Round

Inside Diameter:

0.379 inches

Outside Diameter:

0.625 inches

End Application:

Spring tower

End Fitting Component And Material:

Swivel nut steel comp 316 all ends

Fitting Component And Surface Treatment:

Swivel nut dichromate zinc all ends

Measuring Method And Length:

110.0 inches

Media For Which Designed:

Hydraulic fluid single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A542a0
