**Cross Sectional Shape:**

Round

**Inside Diameter:**

Between 0.187 inches and 1.375 inches

**Temperature Rating:**

-55.0 degrees fahrenheit and 302.0 degrees fahrenheit single response

**End Application:**

2330-01-303-8832

**Maximum Operating Pressure:**

2000.0 pounds per square inch

**Measuring Method And Length:**

145.5 inches

**Product Name:**

Transportation sae j1402 all hose

**Media For Which Designed:**

Hydraulic fluid 1st response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A542a0
