Cross Sectional Shape:

Round

Inside Diameter:

Between 0.187 inches and 1.375 inches

Temperature Rating:

-55.0 degrees fahrenheit and 302.0 degrees fahrenheit single response

End Application:

2330-01-303-8832

Maximum Operating Pressure:

2000.0 pounds per square inch

Measuring Method And Length:

145.5 inches

Product Name:

Transportation sae j1402 all hose

Media For Which Designed:

Hydraulic fluid 1st response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A542a0
