End Application:

4320-01-397-6053

Layer Composition And Location:

Outer layer molded rubber, synthetic

Outer Covering Environmental Protection:

Ozone resistant

Product Name:

Hose assemblies, rubber, synthetic, liquid petroleum fuels, dispensing, collapsible, standard and flow temperature

Special Features:

Ends coupling halves, qk-disconnect, cam-locking type

Media For Which Designed:

Fuel single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A542a0

Mil-std (military Standard):

Mil-prf-11588 spec.
