End Application:

Boat, rigid i

Layer Composition And Location:

1st layer braided corrosion resistant steel wire

Measuring Method And Length:

21.0 feet

Product Name:

Stainless steel braided hose

Special Features:

For use on hydraulic trim tabs; accomodates 12, 16, or 90 degree transcoms, 12v or 24v system

Media For Which Designed:

Hydraulic fluid single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
