End Application:

2815-01-532-4084 engine, diesel p/n 3512b

Layer Composition And Location:

Outer layer wrapped rubber, synthetic

Maximum Operating Pressure:

500.0 pounds per square inch

Outer Covering Environmental Protection:

Oil resistant and weatherproof

Special Features:

High temperature coolant hose; synthetic rubber inner tube, one ply of wire braid reinforcement

Media For Which Designed:

Water-glycol single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A542a0
