Cross Sectional Shape:

Round

End Application:

Trailer, boat

Maximum Operating Pressure:

3000.0 pounds per square inch

Measuring Method And Length:

18.0 inches

Product Name:

18" thermoplastic flexible hydraulic brake lines

Media For Which Designed:

Hydraulic fluid single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A542a0
