Body Length:

5.000 inches

Body Width:

2.000 inches

Perforation Diameter:

0.125 inches

Filtering Media Design:

Perforated single filtering media response

Special Features:

Strainer lined with 120 mesh stainless steel aisi 302 woven wirecloth

Material:

Steel screening

Fsc Application Data:

Engine fuel system, prime moving

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
