**Overall Length:**

0.980 inches

**Thickness:**

0.250 inches

**Wrenching Facility Shape:**

Hexagon

**Width Across Flats:**

1.380 inches

**Male End Thread Class:**

3a

**Female End Thread Class:**

2b

**Male End Thread Size:**

1 1/4-28

**Male End Screw Thread Series Designator:**

Un

**Male End Thread Direction:**

Right-hand

**Male End Thread Length:**

0.300 inches

**Female End Thread Size:**

1 3/16-28

**Female End Screw Thread Series Designator:**

Un

**Female End Thread Direction:**

Right-hand

**Female End Thread Length:**

0.400 inches

**Special Features:**

2 lockwire holes in opposing corners of hexagon wrenching facility, 6 equally spaced holes between male and female thread

**Material:**

Aluminum alloy

**Material:**

Aluminum alloy

**Surface Treatment:**

Anodize

**Surface Treatment:**

Anodized

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T385-I
