Thread Direction:

Right-hand internal

Pipe Size For Which Designed:

0.125 inches

Connection Style:

Plain (optional end)

Maximum Operating Pressure:

125.0 pounds per square inch

Thread Size:

0.125 inches internal

Material:

Copper alloy

Material Specification:

Astm, b62 assn standard single material response

Media For Which Designed:

Water, fresh

Style Designator:

Cap

Thread Series Designator:

Npt internal

Specification Or Standard:

A class and 1 pressure rating

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A208a0
