Wire Diameter:

0.00140 inches

Mesh Size:

325.0

Filtering Media Design:

Mesh single filtering media response

Special Features:

Flow rate: inboard screen-10gpm, outboard screen-8gpm; clean pressure drop at rated flow: inboard screen-2 psid, outboard screens-35 psid

Material:

Stainless steel filtering medium

Surface Treatment:

Passivate screening

Fsc Application Data:

Fuel control, engine, acft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
