Connection Type:

Butt weld pipe 1st end

Flow Angle:

45.0 degrees

Special Features:

0.750 inch, class 3000

Material:

Steel elbow

Material Specification:

Astm-a182 f11 cqjipab+1200.0 assn standard single material response elbow

Reference Number Differentiating Characteristics:

Quality controlled in accordance with navsup control instructions for surf level 1 items

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A080b0
