Overall Length:

0.900 inches

Quick Disconnect Method:

Twist-lock

Quick Disconnect Size:

0.250 inches

Maximum Operating Temp:

160.0 degrees fahrenheit

Maximum Operating Pressure:

60.0 pounds per square inch

Special Features:

Media for which designed: fuel

Material:

Aluminum alloy body

Material Specification:

Qq-a 225/6 federal specification single material response body

Surface Treatment:

Anodize body

Surface Treatment Specification:

Mil-a-6625 military specification single treatment response body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531v0

Mil-std (military Standard):

Mil-a-6625 spec.
