Connection Style:

Swivel nut, flareless (swivel nut attachment method optional) (tube) 1st end

Connection Type:

Unthreaded external hose 2nd end

Thread Size:

12.00 millimeters 1st end

Flow Angle:

45.0 degrees

Inside Diameter Hose Accommodated:

7.144 millimeters 2nd end

Outside Diameter Tube Accommodated:

7.938 millimeters 1st end

Special Features:

M12x1.0-6h thread

Material:

Titanium alloy elbow

Material Specification:

Ams4928 assn standard single material response nut

Thread Series Designator:

Iso m 1st end

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A080b0
