Overall Length:

0.800 inches

Quick Disconnect Method:

Push-pull

Quick Disconnect Size:

0.750 inches

Maximum Operating Temp:

275.0 degrees fahrenheit

Maximum Operating Pressure:

500.0 pounds per square inch

Special Features:

Non-polarized; w/two safety wire holes

Material:

Aluminum alloy body

Material Specification:

Qq-a-225/6 federal specification single material response body

Media For Which Designed:

Hydraulic fluid, silicate-ester base

Surface Treatment:

Anodize body

Surface Treatment Specification:

Mil-a-8625 military specification single treatment response body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531v0

Mil-std (military Standard):

Mil-a-8625 spec.
