Overall Length:

1.051 inches

Outside Diameter:

1.952 inches

Tube Outside Diameter For Which Designed:

1.500 inches

Working Temperature And Service Type:

450.0 degrees fahrenheit any acceptable

Material:

Steel, corrosion resisting

Material:

Stainless steel

Style Designator:

Flexible coupling assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T385-v
