Special Features:

Centrifugal separation design; internal pipe thd for inlet, outlet and discharge ports; m40.0 to 400.0 degrees f temp range; 750.0 ps max; 20.00 lbs to 200.00 lbs differential pressure; differential pessure determins micron rating, gpm flow rate

Material:

Nickel alloy k-500 body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A24000
