Wall Thickness:

0.005 inches

Casehardening Indicator:

Not casehardened

Overall Length:

1.202 inches

Outside Diameter:

0.245 inches

Body Length:

0.060 inches

Metallic Hardness Rating:

143.0 brinell

Seat Angle In Deg:

37.0

Hose/tube Outside Diameter For Which Designed:

0.125 inches

Special Features:

Cleaned for lox service

Material:

Nickel copper alloy

Material:

Nickel alloy

Style Designator:

Seal

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T385-j
