Wall Thickness:

0.005 inches

Casehardening Indicator:

Not casehardened

Overall Length:

Any acceptable

Outside Diameter:

0.385 inches

Body Length:

0.075 inches

Metallic Hardness Rating:

Not rated

Seat Angle In Deg:

37.0

Hose/tube Outside Diameter For Which Designed:

0.375 inches

Special Features:

L after dash number will be lox cleaned and packaged in accordance with bulk packaged iaw aerospace fittings specification vs-vsf-5-2 method 3

Material:

Copper alloy, qq-c-576, soft annealed

Material:

Copper alloy

Surface Treatment:

Tin

Style Designator:

Seal

Surface Treatment:

Tin plated

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T385-j
