Inside Diameter:

Between 0.427 inches and 0.449 inches

Overall Width:

0.080 inches

End Application:

Guidance and control group

Fastening Device Type:

Spring tension

Material:

Steel

Material Specification:

Sae 1065-1080 assn standard single material response

Surface Treatment:

Zinc

Surface Treatment Specification:

Qq-z-325 federal specification single treatment response

Style Designator:

Wire

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A12700
