**Maximum Operating Temp:**

160.0 degrees fahrenheit single response

**Connection Type:**

Unthreaded internal hose all ends

**Material:**

Aluminum alloy 6061 body

**Material Specification:**

Qq-a-225/8 federal specification single material response body

**Surface Treatment:**

Anodize body

**Surface Treatment Specification:**

Mil-a-8625 military specification single treatment response body

**Specification Data:**

00624-ae83074r professional/industrial association specification

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A080b0

**Mil-std (military Standard):**

Mil-a-8625 spec.
