Maximum Operating Temp:

160.0 degrees fahrenheit single response

Connection Type:

Unthreaded internal hose all ends

Material:

Aluminum alloy 6061 body

Material Specification:

Qq-a-225/8 federal specification single material response body

Surface Treatment:

Anodize body

Surface Treatment Specification:

Mil-a-8625 military specification single treatment response body

Specification Data:

00624-ae83074r professional/industrial association specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A080b0

Mil-std (military Standard):

Mil-a-8625 spec.
