Body Style:

Plain

Concentric Hole Depth:

1.250 inches

Concentric Hole Diameter:

0.371 inches

Second End Connection Type:

Threaded internal tube

Second End Style Designator:

Gasket seal

Second End Thread Class:

3b

Second End Thread Direction:

Right-hand

Second End Thread Length:

0.250 inches

Length From Bearing Surface Of Wrenching Feature To End Of First Diameter:

0.837 inches

Length From Bearing Surface Of Wrenching Feature To End Of Second Diameter:

0.413 inches

Wrenching Feature Height:

0.250 inches

Second End Thread Size:

0.190 inches

Second End Thread Series Designator:

Unjf

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
