End Application:

F16 aircraft

Connection Style:

Insert (pipe) all ends

Leg Length:

0.440 inches 2nd end

Connection Type:

Unthreaded external tube all ends

Outside Diameter Tube Accommodated:

0.152 inches all ends

Special Features:

Conform to litton instruments and life support div. Manf. Quality standard st1637803

Material:

Copper alloy

Media For Which Designed:

Aeronautical fluid single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A080b0
