Overall Length:

0.720 inches

Outside Diameter:

0.690 inches

Tube Outside Diameter For Which Designed:

0.375 inches

Working Pressure And Service Type:

430.0 pounds per square inch oxygen

Working Temperature And Service Type:

160.0 degrees fahrenheit oxygen

Material:

Aluminum alloy, qq-a-225/6, alloy 2024, t851

Material:

Aluminum alloy 2024

Surface Treatment:

Anodize

Style Designator:

Flexible coupling body

Surface Treatment:

Anodized, mil-a-8625, type 2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T385-v
