**End Connection Quantity:**

2

**End Application:**

Crane; valve, electro-hydraulic

**Connection Type:**

Threaded internal boss

**Special Features:**

Actuator unit; 20-22 bar +5v/-5v power supply; consists of six actuators, one end wall and one connection wall; the connection wall may in some cases be replaced by a pressure reducer; these units are made up into a block by two drawbars; the actuators are electro-hydraulic and work with mechanically reset position control; the actuators must not be unscrewed and are therefore lead-sealed; it follows that a faulty actuator must be replaced as a complete unit

**Material:**

Steel

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**
