End Application:

Water distribution system; stove tank raw water rdf

Connection Style:

Knurled (hose) 2nd end

Connection Type:

Unthreaded external hose 2nd end

Thread Size:

2.500 inches 1st end

Inside Diameter Hose Accommodated:

2.000 inches 2nd end

Nominallength:

12.000 inches

Special Features:

Klw washer standard; super king long shank coupling

Material:

Steel nut

Media For Which Designed:

Water single response

Surface Treatment:

Anodize nut

Thread Series Designator:

Npsm 1st end

Furnished Items And Quantity:

1 preformed packing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
