Mounting Type:

Weld

Body Length:

30.500 inches

Body Outside Diameter:

5.750 inches

End Application:

Weapons code kan, usns stalwart class tagos

Features Provided:

By-pass valve and magnet

Filtering Element Quantity:

1

Special Features:

Up flow direction hydraulic suction filter mounted by welding housing to tank; element is cleanable stainless steel wire, 100 mesh with absolute micron rating of 149; bypass valve cracking set at 3psi; outlet is internally threaded 3.00in. Npt; has suction line dirt indicator

Material:

Stainless steel filtering medium

Style Designator:

Suction type blunt end

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
