Inlet Connection Type:

Threaded

End Application:

Galley cooking equipment exhaust ventilators, whidbey island class lsd

Inlet Connection Size:

1/8 in nptf

Inlet Thread Location:

External

Spray Angle In Deg:

80.0

Flow Capacity At Specificationified Pressure Rating:

3.0gpm at 40 psi

Special Features:

Brass spray nozzle number 4173 shaped like a tee with spray outlets 180 degrees apart (90 degrees from water inlet); purpose to provide two hot soapy water spray's in 80 degree patterns

Material:

Copper alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A508d0
