**Inlet Connection Type:**

Threaded

**End Application:**

Galley cooking equipment exhaust ventilators, whidbey island class lsd

**Inlet Connection Size:**

1/8 in nptf

**Inlet Thread Location:**

External

**Spray Angle In Deg:**

90.0

**Flow Capacity At Specificationified Pressure Rating:**

3.0gpm at 40 psi

**Special Features:**

Brass spray nozzle number 80 shaped like an elbow with spray outlet 90 degrees from water inlet; purpose to provide hot soapy water spray in 90 degree pattern

**Material:**

Copper alloy

**Media For Which Designed:**

Water

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A508d0
