Inlet Connection Type:

Threaded

End Application:

Galley cooking equipment exhaust ventilators, whidbey island class lsd

Inlet Connection Size:

1/8 in nptf

Inlet Thread Location:

External

Spray Angle In Deg:

90.0

Flow Capacity At Specificationified Pressure Rating:

3.0gpm at 40 psi

Special Features:

Brass spray nozzle number 80 shaped like an elbow with spray outlet 90 degrees from water inlet; purpose to provide hot soapy water spray in 90 degree pattern

Material:

Copper alloy

Media For Which Designed:

Water

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A508d0
