End Application:

1520-01-355-8250

Connection Style:

Beaded (hose) all ends

Connection Type:

Unthreaded external tube all ends

Outside Diameter Tube Accommodated:

0.453 inches all ends

Nominallength:

4.340 inches

Product Name:

Adapter assembly, ecs, receiver/filter/dryer

Special Features:

Assy includes 2 preformed polytetrafluoroethylene packings/as1097-10, and an attached warning streamer/nas1756-12

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-225/8 federal specification single material response

Media For Which Designed:

Refrigeration compound single response

Style Designator:

Rigid, long center wrenching facility

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A080b0
