Overall Length:

2.125 inches

Inlet Connection Type:

Socket

End Application:

4230-01-429-5457

Orifice Diameter:

0.125 inches

Inlet Connection Size:

1/4 in

Spray Angle In Deg:

60.0

Spray Type:

Solid stream

Flow Capacity At Specificationified Pressure Rating:

2 gpm at 67 psi

Coverage Pattern Type:

Flat

Special Features:

Assembly consists of nozzle and quick coupling half, both 1/4 in npt; quick coupler is male half from snap-tite (poppet, s or b phn4-4fv); nozzle end is black

Material:

Stainless steel

Media For Which Designed:

Chemical and fuel and water

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A508d0
