End Application:

F-22 raptor

Product Name:

Coupling assembly

Special Features:

Clam-shel closure locks automatically with 3 latch pawls; 400 psig at 300 degrees faranheit; axial adjustment is 1/4" ; angular misaglnment is plus or minus 4 degrees; protection to at least 1500 amperes when tested iaw mil-std-1757; electrical bonding to class sw of mil-b-5087

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T385-v
