Overall Length:

0.750 inches

End Application:

Seawolf class submarine; nha anchor chain securing mechanism.

Product Name:

Grease plug

Special Features:

The basic plug ms18229-08nc is modified with a 0.120 in. Diameter through hole, drilled and tapped 0.250-28unf-3b to a 0.28 in. Min full thread to accommodate a lubrication fitting.

Functional Description:

Provides a mounting point for a lubrication fitting.

Material:

Nickel alloy

General Description:

Distance flat to flat 0.875 in; threads 0.750-16un-2a by 0.338 in. Long; groove after threads for seal is 0.100 in. Long with a diameter of 0.660 in; basic plug iaw ms18229-08nc.

Specification Data:

96906-ms18229-08 government standard
